

## COMMUNITY PHARMACY RESIDENCY PROGRAM

### Overview

The Smith's Community Residency Program offers residents the opportunity to 1) deliver innovative patient care services and patient-centered dispensing in a community pharmacy and in the community it serves, 2) participate in pharmacy management, professional advocacy, teaching/precepting and business development activities at multiple levels within the pharmacy organization and 3) teach, including completion of a teaching certificate program, and conduct practice-based research with support from Roseman University of Health Sciences College of Pharmacy.

Residency graduates will be prepared as clinicians, leaders and advocates for the future of pharmacy. Smith's, and The Kroger Company, offer multiple career paths for residency graduates. It is our desire that residents continue as Smith's employees and help to lead our organization into the future.

### Residency Sites and Learning Experiences

#### Smith's Pharmacy, West Jordan, Utah

Learning Experiences: Patient Care, Patient-Centered Dispensing, Leadership/Management, Teaching/Precepting  
Time spent: 2-3 days per week

*The resident's primary practice site will be a Smith's Pharmacy. Additional learning activities will also be available in other Smith's Pharmacy locations. The resident will provide basic pharmacy services in addition to dispensing, such as counseling, immunizations, health screenings and medication therapy management (MTM) interventions. In addition, the resident will provide extended patient care services including comprehensive medication management and health coaching for various disease states (i.e. diabetes, cardiovascular disease, tobacco dependence and obesity). The resident will work closely with the Pharmacy Manager to gain management skills necessary to run a profitable, patient-centered pharmacy. The resident will also serve as a preceptor for student pharmacists in both introductory and advanced pharmacy practice experiences.*

#### Smith's Division Office, Salt Lake City, Utah

Learning Experiences: Leadership/Management, Practice Advancement, Teaching/Precepting, Patient Care  
Time Spent: 1-2 days per week

*At the Smith's Division Office, the resident will work with division- and district-level personnel with roles to support Smith's Pharmacy operations and clinical services. The resident will work with their district pharmacy coordinator and the division clinical coordinator on practice advancement initiatives, including a clinical services development project quality improvement project and a practice-based research project.*

#### Roseman University of Health Sciences College of Pharmacy, South Jordan, Utah

Learning Experiences: Teaching/Precepting, Research  
Time Spent: 1 day per week

*The resident will spend time at the College of Pharmacy interacting with faculty, students and other pharmacy residents. The resident will have the opportunity to participate in teaching in a mastery learning based academic program. A faculty liaison will provide support for the resident's practice-based research project.*
